

**IQAC**  
**Feedback on Curriculum Design, Development and Revision**  
**Industry**

**Preamble:** This feedback form is designed with an intention to capture the voice of various stakeholders viz. Industry, Potential Employers, Academia, Research Organizations, Professional Bodies, Alumni & Parents and thereby to prepare the graduating engineers of NSRIT to accomplish their professional and career goals in line with the program's educational objectives. Your response will certainly enable us to understand the recent developments competency, skillsets and industry practices at National & International height and reflect the same in the curriculum. Also, this form will enable us to groom the members of faculty periodically to prepare the students to achieve the targeted performance level at the time of graduation. The feedback received from all the stakeholders will be consolidated by the respective Chairperson of the Board of Studies and will be placed for consideration and enriching the curriculum wherever it is applicable.

1. What are the major strengths of the curriculum?

2. Can you describe three major weakness in the overall curriculum design?

3. Can you cite few of the topics in your respective domain in the curriculum which are completely obsolete from the industry perspective?

4. Can you suggest few topics of recent developments related to your domain in the curriculum?

5. Does the curriculum meet the minimum requirement from Industry perspective? If yes, please indicate the rating on 5-point scale on the degree of relativeness to industry requirement (Tick appropriately)

**Yes | No**      Weak   1   2   3   4   5      Strong

6. In addition to technical domain, do you observe any other attributes needed for a graduating engineer viz. Professional Ethics in the respective domain, work etiquettes in the curriculum design? If not can you suggest few topics that are directly related to work environment that need to be groomed during their graduation.

7. In general, how will you rate the curriculum design and content on a five-point scale?

Weak   1   2   3   4   5      Strong

8. Any other suggestions
