

CAMPUS LIFE

NSRIT provides students with an extensive platform that fosters their holistic growth and enhances their college experience through a diverse range of extracurricular and co-curricular activities facilitated by various clubs and societies, thus making their time at the college more memorable. Furthermore, the institute encourages social responsibility by promoting community engagement through National Service Scheme (NSS) and Youth Red Cross (YRC). NSRIT also inspires and motivates students to excel in sports and games, resulting in the institute's notable presence in university selections. The Institute operates a community radio at 88.8 MHz, which offers useful tips to stakeholders and promotes community engagement. Additionally, Technimble, the flagship event of NSRIT, showcases several technical activities organized by students under various professional student body chapters.
