

# Procedure for Ensuring the Quality of Questions in the Assessment Instrument in QPs

01

## Feedback from SMEs in Industries & Academia

To ensure the quality in terms of appropriateness of questions that are relevant to industry needs

02

## Building the Database of Questions

Based on the input vide step #1 as well as learning outcomes, QPs are set and validated by the team in the department and forwarded to the exam cell

03

## Question Paper Setting

Before the commencement of mid-term tests, Questions are randomly picked from the database and again it is scrutinised by the course instructor/ coordinator for freezing the Question paper

04

## Deploying question papers

On successful completion of question paper scrutiny, question paper is printed and deployed for assessment. Again Step #1 is deployed and it is cyclic
